

2 Piece Channel Clips:

While not explicitly covered by BPIR regulations, RSL has endured to make such information public to ensure confidence in products supplied to market.

Product:

Name:	2 Piece Channel Clips
Line:	Strut accessories
Product Identifier:	RSL132-...

Description:

Channel clips are manufactured from grade Q235B steel (GB/T 3274-2017) with a galvanized finish appropriate for general outdoor use.

These clips are designed to secure pipe directly onto channel strut.

Clamps are 32 x 2.5mm (width x thickness) suitable for use with 40mm wide strut/channel. They come in a range of sizes to suit pipe from 48 – 168od (40 – 150nb).

Scope of use:

Channel clips are designed to be used indoors or outdoors. Suitable for use in residential and commercial applications.

The protective galvanized coating ensures an intended life span of 15+ years when installed correctly.

Suitable for use in low and medium environmental conditions.

Conditions of use:

Must be installed in accordance with NZBC standards and RSL installation guide.
